The committee on resolutions reported a revised series of resolutions, which were read and acted on scriatim. As adopted by the convention they urged on congress the necessity of repealing the Bur-tingame treaty, characterizing the effect of the treaty as little better than the slave trade, and requests congress to select some branch of industry as miners and iron-workers, and appropriate a oan payable in twenty years, at a low not exceeding three per all kinds of machinery, and ask for inorporation in the patent laws a provision that all manufacturers of patent articles shall sell said articles at a certain imited but just profit over the cost of manufacture. They demand of cougress a strong protective tariff, and ask that the regulation of tariff duties be uch as so protect home industry against foreign competition. They declare in favor of the election of the President of the United states by the popular vote of the people. They demand of congress and the legislatures strict enforcement of the eight-hour law, and of congress the enactment of stringent usury They heartily condemn the store-order system, as practiced by man-utacturers, and also the prison-contract system of labor, and acknowledge a ebt of gratitude to Governor Tilden, of New York, for his veto of suid system. They ask that congress shall enact laws to give money due for labor precedence over all other claims, and that the government, both State and national, shall pass laws against all discriminations by ommon carriers, under a penalty of the forfeiture of their charter. They recom-mend a liberal system of internal im-

DECLARATION OF PRINCIPLES. The Democracy of Indiana declare their fidelity to all the provisions of the Federal constitution; to a perpetual union of the States; to local self-government in every section; to all public trusts and obligations; to the honest payment of the public debt; to the preservation of the public faith; to the maintenance of free schools, and to the pure and economical administration of the Federal, State and municipal governments. They contemplate with slarm the distress that prevails; the widespread floan cial ruin that impends over the people, and the corruption that prevades the public service; and they charge that these evils are the direct results of the personal government, unwise legislation, vicious financial policy, the great contraction of the currency, and the ex-travagance and selfi-hness of the party ne secretary of war opposed it; he had and its officials who have so long paid nobody to work for them, except colonel Don Platt, editor of the Wash- who believe in and earnestly desire of-

Second - The repeated exposures of corruption in the administration of every branch of public affairs call for continued and therough investigation, not only that cerrupt practices may be brought to light and the guilty parties to punishment, but also that it may l made clear to the people that their only remedy for reform is by making a general and thorough change. The managers having taken their places, Mr. Lord sent to the secretary's desk, and had read an answer adopted by the house of representatives to the plea of Belknap, to the effect that at the time of the commission of the acts charged, Belknap was an officer of the United States, and was such officer until after the house by its proper committee had completed the investigation into the charges against him, and were preparing for his impeachment, a fact known to him when he resigned.

Mr. Carpenter, for the accused, asked for a copy of the replication of the house, and until Monday next to answer. Senator Edmunds submitted an order

that the respondent file his answer to the house by the twenty-fourth instant, and that the managers file their rejoinder by the twenty-fifth, and that the trial proceed on the twenty seventh instant. He said he did not think the bill which passed the senate could pass the house of representatives, and the result would be that there would be no new law on the subject.
